CALL FOR PARTICIPATION

The Symposium on Complex Systems and Intelligent Computing (CompSIC) will be held at the University of Souk Ahras, Algeria in April 29, 2015. CompSIC will be the most comprehensive meeting focused on the various aspects of advances in computer science and its applications. CompSIC will provide an opportunity for academic and industry professionals to discuss the latest issues and progress in the area of Computer Science. In addition, the symposium will publish high quality papers which are closely related to the various theories and practical applications in computer science and its applications. Furthermore, we expect that the conference and its publications will be a trigger for further related research and technology improvements.

The main topics include but will not be limited to:

- Cloud Computing
- Multimedia systems and services
- Database and data mining
- Software engineering
- System modeling
- Web services
- Artificial intelligence
- Distributed algorithms
- Computer vision & Image Processing
- Information systems engineering
- Grid and scalable computing
- Embedded system and software
- Web and internet computing
- Verification and validation
- Networking and communications
- Mobile and ubiquitous computing

Submissions

Paper submissions may be up to eight pages in conference format. Submissions to CompSIC 2015 should represent original research work that is not under review elsewhere. All submissions will be rigorously reviewed and should clearly demonstrate improvements over the existing state of the art. Papers accepted and presented at CompSIC 2015 will be archived on the conference website and would be indexed by Google Scholar and other academic databases.

About Souk Ahras

Numidian city of Thagaste, on whose ruins Souk Ahras was built and it was the birthplace of Saint Augustine of Hippo. Souk Ahras is situated in the extreme north east of Algeria sharing its border with Tunisia. Souk Ahras is a landmark to many famous and touristic places such as the ruins of Madure and Khemissa. The town has a beautiful city centre with many shopping places as well as leisure centres.

Access Information

By road, follow the RN16 leading to Annaba. For people travelling by air, Annaba Airport is the nearest one.
